

Finer Desk for Industry

Finer Desk builds custom desks and tables from premium US grown hardwood. All products are 100% solid wood.

Work with us to design a desk tailored to your needs.

How We Work

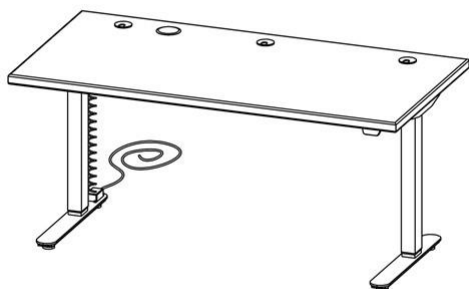

Choose Wood Type and Stain

Choose a wood type and stain that blends with your office styling and will encourage productivity and performance.

Choose Leg Style

Choose from our colored seated leg styles or choose our standing desk base. All legs and standing desk bases are made in the USA.

Design Your Desktop

Design the ideal desk to work flawlessly with your technology. Choose your exact size, your components, and their layout.

About Finer Desk

Finer Desk was founded to provide engineers, salespersons, developers, analysts, lawyers, teachers, musicians, and anyone that appreciates a quality work surface to design one exactly to their unique needs. Everyone's work looks different, and no one desk can suit all workers. We love to help our customers build desks that make themselves and their team more effective with their work.

We also love to build desks that look stunning in their environment. Whether designing home offices, corporate offices, collaboration rooms, production studios, or entertainment and lobby spaces, Finer Desk can help you build the perfect workstations that reflect your working style as well as your design choices.

Our 100% solid wood desks are built to be elegant, and extremely durable. All Finer Desks are made from kiln dried No. 1 grade wood grown here in America. We only use hardwood and we finish all of our desks with a commercial grade sealant which protects the desk from liquid and food spills.

Contact us to design a high quality and beautiful workstation to satisfy your exact needs.
